TROPICAL CYCLONE BULLETIN NR. 8
Tropical Depression NENENG

Issued at 11:00 AM, 20 August 2026
Valid for broadcast until the next bulletin at 5:00 PM today.

NENENG CONTINUES TO MOVE SLOWLY OVER THE COASTAL WATERS OF EASTERN TAIWAN.

Location of Center (10:00 AM)

The center of Tropical Depression NENENG was estimated based on all available data at **450 km North of Itbayat, Batanes (24.8°N, 122.2°E).**

Intensity

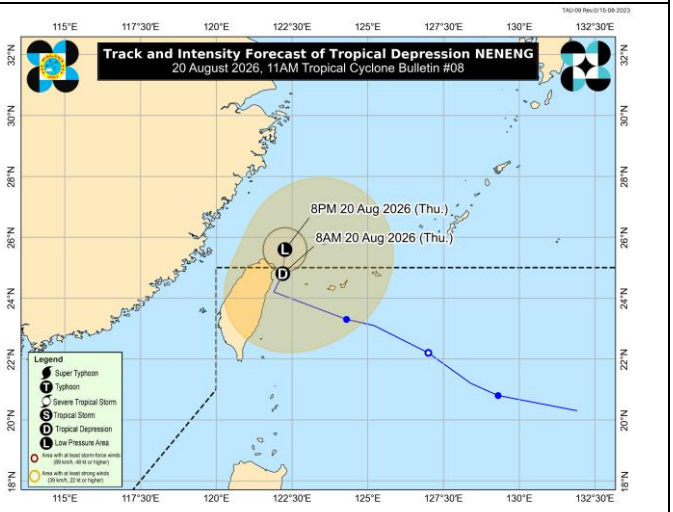
Maximum sustained winds of **45 km/h** near the center, gustiness of up to **55 km/h**, and central pressure of **1004 hPa**

Present Movement

North Northeastward Slowly

Extent of Tropical Cyclone Winds

Strong winds extend outwards up to **420 km** from the center



TRACK AND INTENSITY FORECAST

Date and Time	Center Position			Intensity		Movement dir. and speed (km/h)
	Lat. (°N)	Lon. (°E)	Location	MSW (km/h)	Cat.	
12-Hour Forecast 8:00 PM 20 August 2026	25.6	122.3	540 km North of Itbayat, Batanes	-	LOW	N Slowly

TROPICAL CYCLONE WIND SIGNALS (TCWS) IN EFFECT

No Wind Signal is currently hoisted

OTHER HAZARDS AFFECTING LAND AREAS

Severe Winds

The Southwest Monsoon will bring **strong to gale-force gusts** over the following areas (especially in coastal and upland areas exposed to winds):

- **Today until Saturday (22 August):** Most of Luzon and Visayas, Davao Region, Northern Mindanao, and Zamboanga del Norte.

HAZARDS AFFECTING COASTAL WATERS

24-Hour Sea Condition Outlook

Up to rough seas over the following coastal waters:

- **Up to 4.0 m**: The western seaboards of Batanes and Babuyan Islands.
- **Up to 3.5 m**: The seaboards of Ilocos Norte; the remaining seaboards of Batanes.
- **Up to 3.0 m**: The seaboards of Ilocos Sur and Zambales; the western seaboard of Pangasinan; the northwestern seaboard of Kalayaan Islands.
- **Mariners of motorbancas and similarly sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions.**

Up to moderate seas over the following coastal waters:

- **Up to 2.5 m**: The seaboards of La Union and Lubang Islands; the northern seaboard of Pangasinan; the western seaboard of Batangas; the western and southern seaboards of Bataan.
- **Up to 2.0 m**: The western seaboard of Occidental Mindoro; the northern and western seaboards of northern Palawan including Calamian Islands; the remaining seaboards of Babuyan Islands and Kalayaan Islands.
- **Mariners of motorbancas and similarly sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions.**

Other coastal waters have forecast wave heights of less than 2.0 m.

TRACK AND INTENSITY OUTLOOK

- **It must be emphasized that heavy rainfall and severe winds may still be experienced in localities outside the landfall point and the forecast confidence cone. Refer to "Other Hazards affecting Land Areas" for more details. Furthermore, the track may still shift within the limit of the forecast confidence cone.**
- NENENG is forecast to move generally northward. The center of NENENG may continue to move over the waters off the eastern coast of Taiwan and may exit the Philippine Area of Responsibility within the next 12 hours. This tropical cyclone may weaken into a remnant low within the forecast period.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 5:00 PM today.
